WHO AM I?

Bringing over a decade of expertise in .NET development and Microsoft Dynamics, I launched my freelancing venture in 2019, focusing on Dynamics 365 CE and the Power Platform. I've conducted training sessions for aspiring graduates in Albania, enhancing their skills in these platforms. Beyond technical proficiency, I possess strong soft management skills, honed through successful project deliveries. Let's explore how my experience can benefit your team.

WORK EXPERIENCE

- FISOFT Consulting** 2021 - Present
Founder, D365 CE & PowerPlatform Projects
- PROJECTS:**
 - **ClickDimensions (USA):**
 - Extend one of main services to handle Campaign Automation
 - Creating a complex PCF to manage marketing lists and segments in a custom way and store records in a separate database instead of dataverse
 - Implementing Angular on web resources for better UI of data grids
 - **AirPlus A+ (DE):**
 - Worked on Data Integration team to improve the communication with third party services.
 - Implemented a custom plugin to handle a dynamics json received from a service by using a string manipulation.
 - Sending data from dynamics to other services using ASB.
 - **TrueBlue - AiDEA (IT):**
 - Part AiDEA product team to extend the core functionalities including Flows and Canvas Apps.
 - Moved to manage a delivery team which i was responsible for customer bugs and features handling.
 - On customers side:
 - Environments preparation: Sandox and Prod
 - Solution versioning (upgrade)
 - Custom development from Dev to Prod
 - Data management using SSIS and SQL4CDS

HISTORY

"Success is not a destination; it's a journey of continuous improvement and relentless dedication."
